PROFILE

I'm Vlad, specializing in ReactJS, Typescript, and crafting dynamic interfaces.

Proficient in JavaScript, HTML, CSS, and SCSS. Skilled in integrating Webpack, NodeJS, MySQL, and MongoDB. Experienced with ExpressJS, ensuring robust server-side functionality. Proficient with Telegram API and hosting for end-to-end development and deployment.

EXPERIENCE

Frontend Developer at The Rolling Scopes

July 2022 — February 2023

- Technology study: React, TypeScript, CSS/SCSS, Node.js, Express.js.
Team development experience:

- Online-Store (<https://boisterous-cajeta-64e3a7.netlify.app/>)

- working with API
- adding a product to the cart
- dynamic processing of received data
- interaction with local storage, adaptive layout.

- Fatsecret app clone(fatsecret-rs-clone.netlify.app/)

- receiving data from the API
- processing a request
- dynamically changing data
- working with the server
- with the user's account

Software Engineer at BELAZ

February 2021 — February 2023

- Refactoring legacy code

- Rewrote the tabular site model to the block model

- Local website support

- Writing new blocks according to HTML5 и ES6
- Adding SCSS according to CSS3

- Development of new application blocks (filtering, sorting, searching)

Freelancer

February 2023 — September 2023

- Working with API of major cryptocurrency exchanges

- Data processing automatically on the serve

- Working with Telegram bot (receiving data from the server, response, mathematical actions)

- Working with MySQL database
